

That Time.....

James Gregory Maynard

April, 2010

That time.....

A one of a kind

Moment in time

Etched

Vividly

In your mind

That Time.....

When your stars

The sun

The moon

And planets

Aligned

That time.....

When you

See the most beautiful sight

Hear the most charming sound

Feel the most incredible softness

Smell the most sensuous aroma

Taste the most delectable food.

That time.....

That one

You are never able

To redo

Yet forever seek

Again

That time.....
